

On February 23, 2024, Stardust Power Inc., which is a party to a previously disclosed business combination, dated as of November 21, 2023, with Global Partner Acquisition Corp II, among other parties, posted a marketing video to its corporate website. The following is a transcript:

Stardust Power is developing one of, if not the largest American lithium refineries. Our strategy is unique that we're creating a large, centrally located refinery, optimized for multiple sources of brine input.

The lithium sector has been growing substantially with an estimated 33% CAGR from 2020 to 2030. The overwhelming demand for battery grade lithium has created a market force in the sector.

China is a dominant player in the lithium space, up to 66% of the total market, but also up to 85% of refinery capacity.

Much of the raw material feedstocks comes from places like Africa, South America and Australia.

Rising geopolitical tensions make a dangerous play for the US to be dependent on Chinese products, especially in critical minerals and battery-grade lithium.

It is important for the United States to be an energy transition leader, to create a resilient American supply chain that can't be threatened from foreign interests. Currently, there is little lithium manufacturing in America with up to 20,000 tonnes being produced domestically.

Stardust Power is developing the capacity to build up to 50,000 tonnes per annum of battery grade lithium products.

We have secured 66 acres in the greater Tulsa area that has shown to be ideal for a lithium refinery. Also, in partnership with the state government, we've secured incentive packages to develop our facility there.

Another reason we like Oklahoma is strong connectivity. Being right in the center of the country, it has ideal logistics infrastructure, including connectivity to rail lines as well as highways.

We also have the advantage of being on the largest inland waterways system in the United States, helping our hub-and-spoke model.

Sustainability is built into every step of our process from the sustainable power we source to fuel our refinery operations, our facility is being engineered for low emissions to reduce its carbon footprint and limit any emissions into the air and atmosphere.

At Stardust power, our strategy is to aggregate lithium feedstock supply so we can scale faster and build more battery-grade lithium products. We continually seek to vertically integrate our process by developing assets upstream to expand our access to feedstock.

We have limited technology risk as our conversion process is based on proven and established technologies for chemical conversion into battery-grade.

We work with best-in-class partners on an EPCM model to further limit any technology risk.

At Stardust, we have an exceptional management team coupled with deep technical expertise in lithium and experience in finance.

Stardust Power has recently entered into a business combination agreement with Global Partners Acquisition Corporation II. In effect, this merger will result in Stardust Power being a public company on the NASDAQ with an implied enterprise value of up to \$490 million. We're excited to partner with GPAC II and its underlying owners — Antarctica Capital. Antarctica and GPAC provide value-add for the development of the company.

Antarctica Capital along with the financial sponsor of GPAC II is an investment firm that has a deep track record of adding value.

Through its merger, Stardust Power seeks to be listed on the NASDAQ in the first half of 2024 under the ticker symbol SDST.

Forward-Looking Statements

The information included herein and in any oral statements made in connection herewith include “forward-looking statements” within the meaning of Section 27A of the Securities Act of 1933, as amended (the “Securities Act” and Section 21E of the Securities Exchange Act of 1934, as amended (the “Exchange Act”). All statements, other than statements of present or historical fact included herein, regarding the proposed business combination, Global Partner Acquisition Corp II’s (“GPAC II”) and Stardust Power Inc.’s (the “Company”) ability to consummate the transaction, the benefits of the transaction, GPAC II’s and the Company’s future financial performance following the transaction, as well as GPAC II’s and the Company’s strategy, future operations, financial position, estimated revenues and losses, projected costs, prospects, plans and objectives of management are forward-looking statements. When used herein, including any oral statements made in connection herewith, the words “could,” “should,” “will,” “may,” “believe,” “anticipate,” “intend,” “estimate,” “expect,” “project,” the negative of such terms and other similar expressions are intended to identify forward-looking statements, although not all forward-looking statements contain such identifying words.

These forward-looking statements are based on GPAC II’s and the Company’s management’s current expectations and assumptions about future events and are based on currently available information as to the outcome and timing of future events. GPAC II and the Company caution you that these forward-looking statements are subject to risks and uncertainties, most of which are difficult to predict and many of which are beyond the control of GPAC II and the Company. These risks include, but are not limited to, (i) the risk that the proposed business combination may not be completed in a timely manner or at all, which may adversely affect the price of GPAC II securities; (ii) the risk that the proposed business combination may not be completed by GPAC II’s business combination deadline and the potential failure to obtain an extension of the business combination deadline if sought by GPAC II; (iii) the failure to satisfy the conditions to the consummation of the proposed business combination, including the approval of the proposed business combination by GPAC II’s shareholders and the Company’s stockholders, the satisfaction of the minimum trust account amount following redemptions by GPAC II’s public shareholders and the receipt of certain governmental and regulatory approvals; (iv) the effect of the announcement or pendency of the proposed business combination on the Company’s business relationships, performance, and business generally; (v) risks that the proposed business combination disrupts current plans of the Company and potential difficulties in the Company’s employee retention as a result of the proposed business combination; (vi) the outcome of any legal proceedings that may be instituted against GPAC II or the Company related to the agreement and the proposed business combination; (vii) changes to the proposed structure of the business combination that may be required or appropriate as a result of applicable laws or regulations or as a condition to obtaining regulatory approval of the business combination (viii) the ability to maintain the listing of GPAC II’s securities on the Nasdaq; (ix) the price of GPAC II’s securities, including volatility resulting from changes in the competitive and highly regulated industries in which the Company plans to operate, variations in performance across competitors, changes in laws and regulations affecting the Company’s business and changes in the combined capital structure; (x) the ability to implement business plans, forecasts, and other expectations after the completion of the proposed business combination, and identify and realize additional opportunities; (xi) the impact of the global COVID-19 pandemic and (xii) other risks and uncertainties related to the transaction set forth in the sections entitled “Risk Factors” and “Cautionary Note Regarding Forward-Looking Statements” in GPAC II’s prospectus relating to its initial public offering (File No. 333-351558) declared effective by the U.S. Securities and Exchange Commission (the “SEC”) on January 11, 2021 and other documents filed, or to be filed with the SEC by GPAC II, including GPAC II’s periodic filings with the SEC, including GPAC II’s Annual Report on Form 10-K filed with the SEC on March 31, 2023 and any subsequently filed Quarterly Report on Form 10-Q. GPAC II’s SEC filings are available publicly on the SEC’s website at <http://www.sec.gov>.

The foregoing list of factors is not exhaustive. There may be additional risks that neither GPAC II nor the Company presently know or that GPAC II or the Company currently believe are immaterial that could also cause actual results to differ from those contained in the forward-looking statements. You should carefully consider the foregoing factors and the other risks and uncertainties described in GPAC II’s proxy statement contained in the registration statement on Form S-4 (File No. 333-276510) filed with the SEC on January 12, 2024 (the “Registration Statement”), including those under “Risk Factors” therein, and other documents filed by GPAC II from time to time with the SEC. These filings identify and address other important risks and uncertainties that could cause actual events and results to differ materially from those contained in the forward-looking statements. Forward-looking statements speak only as of the date they are made. Readers are cautioned not to put undue reliance on forward-looking statements, and GPAC II and the Company assume no obligation and, except as required by law, do not intend to update or revise these forward-looking statements, whether as a result of new information, future events, or otherwise. Neither GPAC II nor the Company gives any assurance that either GPAC II or the Company will achieve its expectations.
